ELEGANT CURVES

“Classic elegance meets modern styling in this stunning ensuite and beautiful yet functional family bathroom. Every element has been carefully chosen to perfectly blend in with the spacious town house in Milford. In each bathroom, the black and white colour scheme exudes sophistication. White tiles and fittings create a clean backdrop for the striking gloss black vanity to become the focal point. A visual and sensual delight, the main bathroom invites you to follow its graceful lines around the room. The freestanding stone bath creates a wonderful centrepiece, its sensuous curved form echoed by the oval mirror above the vanity. Frameless glass continues the clean, streamlined flow into the shower, evoking a sense of openness. The owner’s personal touch adds design flair to each bathroom. Like jewellery, well-chosen accessories bring each space together and make them her own”.
