

# With respect to the past

Classic charm meets contemporary efficiency in this bathroom renovation by experienced designers Home Trends

**An effective renovation is often about bringing together great individual parts.**

Home Trends has been providing tiling and bathroom solutions for the past 18 years, says designer Janet Kevin.

“Our long experience means we can supply the design, products and services to meet your style and budget.”

This project, in an historic Devonport villa, was about celebrating the existing stained glass window and introducing a laundry, tucked neatly into a cupboard.

Royale Kitchens created the modern

vanity. Double Vitra Matrix basins are set beneath the mirrored cabinet and strip lights highlight natural stone mosaics in the wall recess, creating drama at night.

“For day-to-day convenience and to bring the feel of more space we specified a tiled frameless glass shower by Arctic Glass with two luxurious showerheads – Hansa 2day and Hansajet – by Franklins.

“The sculptural tub, by Hoesch, is another key element, and sets off the stained glass window,” says Kevin.

Home Trends offers free plans, detailed

quotes and project management, together with competitive prices and guarantees.
